

3D DETAILING

the detailing of the Pre-Engineered buildings is modeled using 3D Detailing software Aveva BOCAD which enables us to visualize the structural frames in 3 dimensions. The structural connections and details can be verified and checked in advance prior to the extraction of shop drawings. Once verified and cross-checked, the shop drawings can be extracted

OUR FACILITY

Sachin Hitech Industries owns a fully equipped factory at Parandur Road, Kanchipuram. The factory is spread over 1.1 acres of land with 22,000 sqft of covered area.

Automatic Pull through Welding Machine, CNC Plasma Cutting and Purlin Roll forming machines are some of the hi-tech machinery available with us in our plant. The factory has 2 EOT cranes to handle the materials and Diesel Generator backup.

PRE-ENGINEERED BUILDING SOLUTIONS

ABOUT US

Sachin Hitech Industries Pvt Ltd (SHIP) was established in 2006 and since then, consistently provided clients in India with breakthrough solutions in the field of Pre-Engineered building constructions. We offer a wide range of services including Design, Fabrication, Civil construction, PEB Supply, and Erection. We at Sachin Hitech Industries guarantee in-depth analysis, optimal design and reliable execution from the ground up, making sure that all aspects - Engineering, Mechanical, Civil and Legal are covered with no exception.

If you are embarking on an important construction project, it pays to join hands with the experts. At SHIP, our mission is to bring together the best minds in the business, individuals with cutting-edge knowledge across various industry disciplines that provide high-quality solutions at an affordable cost. As a company our priority is customer satisfaction. We achieve that by creating a unique business process that integrates the best practices of the industry

Redefining the way industries are built in India

OUR SERVICES

Sachin Hitech Industries offers a wide range of solutions and services in Pre-Engineered Buildings. These buildings can be tailor-made to suit your requirements and are easily expandable, withstand harsh climatic conditions and come with low maintenance.

Pre-Engineered Buildings are the perfect solutions for Industrial and commercial constructions like Factories, Warehouses, Aircraft hangars, Cold storage, Workshops, Showrooms, Service centers, Sports halls, Supermarkets etc.

DESIGN | ENGINEERING | DETAILING | FABRICATION | CONSTRUCTION | ERECTION | TURN-KEY PROJECTS

At SHIP the structural fabrication works are with high-quality workmanship. We possess expertise in MMAW, GMAW, and SAW Welding techniques. We make use of CNC Plasma cutting machines for precise cutting of the plates. All manual welding is executed by AWS-certified welders. The entire process is monitored by highly qualified engineers who ensure product and process quality.

- WAREHOUSE
- FACTORIES
- STEEL BUILDINGS
- STRUCTURAL FABRICATION
- SPORTS ARENA
- TURNKEY PROJECTS

We also undertake Turnkey projects including Civil works. Our Industrial Civil Construction services begin with soil exploration and result in providing efficient design. Our expertise in PEB allows us to design efficient civil foundations for the structures. They are executed in accordance with the most stringent quality conditions.
